What difficulties have you experienced as a juvenile living among adults?

Learning who to trust even if they are saying things that sound good to me or I agree with.

Have you been negatively affected by your experiences as a juvenile living among adult prisoners? Please explain.

Yes, I was affected negatively by being a juvenile among adult prisoners because I would listen to people who didn't care if I lived or died, did bad or good because I didn't understand prison and they was here with me. I would listen to them and be mad at my family because they couldn't help me understand.

How have you resolved these difficulties or dealt with them?

Sometimes I would fight to resolve these difficulties. Sometimes I would call my family. Now I take time out to think everything over then decide what is best.

How has a life of incarceration changed you?

My big change is I listen and am open to what I don't know.

Have you remained in continual contact with family or friends since becoming incarcerated?

Yes, I am in contact with friends and family.

If you were granted a second chance and released, what would you do?

Work in a factory that makes glass and be an after school counselor for youth.
